- [Add certificate name – Issuer, Year]

PROFESSIONAL SUMMARY

First-year Information Technology student at Passerelles numériques Cambodia (PNC), Generation 2027, with a strong interest in web and full-stack development. Building skills in HTML, CSS, JavaScript and Python through hands-on projects. Seeking an internship to apply my skills, learn from experienced developers and contribute to a team.

EDUCATION

Information Technology (Year 1) 2024 – Present
Passerelles numériques Cambodia (PNC), Phnom Penh · Generation 2027

- Studying web development (HTML5, CSS3, JavaScript), Python, REST APIs, databases and software development practices.

High School Diploma 2021 – 2024
Rovieng High School, Preah Vihear, Cambodia

PROJECTS

SMART SLIDE – Touchless Presentation Control
Python · OpenCV · MediaPipe

- Developed a hand-gesture system that controls presentation slides through a webcam, with no physical hardware.
- Applied computer vision to detect hand movements and turn them into slide navigation commands.

Personal Portfolio Website chansetha.vercel.app
HTML · CSS · JavaScript · Vercel

- Designed and deployed a responsive portfolio showcasing my skills, journey and projects.
- Implemented clear navigation, smooth CSS animations and a modern dark style.

Student Clubs Website
Frontend UI · Git · GitHub · Team project

- Collaborated with teammates to design and build a web portal for student club activities.
- Used Git and GitHub for version control and team workflow.

Library Management System
HTML · CSS · JavaScript · Learning project

- Built a learning project to practice organizing book records and core system development concepts.

EXPERIENCE & LEADERSHIP

Service Worker 4 months
Bonchon Restaurant, Phnom Penh

- Managed customer service, order processing and team communication in a fast-paced environment.

Active Member & Leadership Roles
Union of Youth Federations of Cambodia (UYFC)

- Organized community initiatives, led peer activities and worked closely with team members.
